Codi,

Sorry I didn't get the meeting done Friday I still had 2 guys out. So I did it this afternoon with 2 separate crews. I explained to them what happened for our violation. What are penalty was. Explained what SD 1 call is and how it works. The safety reasons for us and others in the working area for if we hit utilities. And also the money cost of fixing them. My 2 foreman that run the crews already know all this but went over all of it even with the laborers. I will mail the check in the am and try to get a meeting scheduled with Marcus from mdu.

Thanks
Brad ficken

Good morning Brad,

I appreciate the heads up. Attached is the contact information for Marcus at MDU. For the in house safety meeting, please send me a roster and discussion points. That will meet that requirement and when you talk with MDU, just drop me an email that you met, that's all I need. The Damage prevention meeting schedule will be published in January. With COVID19, I am pretty sure all of our meetings will be held online through ZOOM but I will email that agenda to you as soon as it is available.

Please let me know if there are any other questions. Thank you again Brad, your attention to the requirements is appreciated.

Marcus Christenson

Sincerely,

Codi Gregg

Codi,

I haven't gotten our in house safety meeting done. We had a few guys sick last week and weather was bad so as a precaution I kept everyone home. This week has been back and forth with the snow melt but we will all be in tomorrow (friday) I will have our meeting and send you the info. I will also get a checked mailed. Do you have a contact for mdu that I can have for the jobsite meeting we need to conduct? Or us mdu allowing it with covid?. Sorry about the delay.

Thanks
