Other information to support your position:

We were notified Mdu could not locate this line but they put marks on the ground anyways. The marks put down were not correct. I was notified by locater and he told me to contact Mdu to have them there while working. So we did that and arranged to meet and dig.

We attempted to hand dig the marks put down but the employee of Mdu was in a rush so he told my crew to use excavator. He thinks the line might not be there. But could not prove it. Anyways he told us to use our excavator on the marks. We don't appreciate putting our equipment and employees at risk by having us dig on the marks. There was no gas line there luckily

Street Address / location of alleged violation:

City Rapid city

State South Dakota

Date of alleged violation: Sep 05, 2020

Time of alleged violation: 08:00 AM

Describe your allegation:

My crew was instructed to dig on marks put down by locater by an Mdu employee. I didn't feel safe using our equipment to find a 2" gas main that they cannot properly locate. The gas line was not there luckily so they just guessed by putting down mark right through our work area. The locator and Mdu employee both were in a rush. My crew attempted to hand dig our work are but Mdu employee was in a rush so he said to use excavator. I guess somebody should of done a better job not sure who either locater or Mdu

Do you believe the alleged violation to be intentional?

Yes

Why or why not?

We attempted to hand dig but was instructed to use mechanical equipment with no proof high pressure gas line was not there.
